Department of Neurology, The Second Affiliated Hospital of Hunan University of Traditional Chinese Medicine, Changsha, China

Correction to: Eur Rev Med Pharmacol Sci 2023; 27 (10): 4462-4470–DOI: 10.26355/eurrev\_202305\_32452-published online on May 29, 2023.

After publication, the authors have discovered a mistake in the number of male and female patients in the Patients and Methods section.

Therefore, the following sentence “58 male patients and 42 female patients” is corrected into “71 male and 39 female patients”.

The correction does not affect the article’s results and conclusion as patients are reported correctly in the text as well as figures and tables.

There are amendments to this paper. The Publisher apologizes for any inconvenience this may cause.
