Eur Rev Med Pharmacol Sci 2023; 27 (24): 12103-12111–DOI: 10.26355/eurrev\_202312\_34808–PMID: 38164872, published online on December 22, 2023.

After publication, the authors found that Table III's legend was the same as that of Table II.

Therefore, Table III's legend has been corrected as follows:

Table III. Plasma PK parameters following repeat doses of IV NAC 600 mg (n = 24).
